

# Vannlithi Kim

Software Developer

## Introduction

I'm Vannlithi KIM, a passionate software development enthusiast with a relentless curiosity for exploring new programming languages and technologies. In my academic journey, I dedicate 12 hours a day to immersive learning, collaborating within an agile team. My strength lies in quickly grasping new concepts, facilitating efficient contributions to projects and adapting to changing requirements. A problem-solving aficionado, I break down complex issues with a logical mindset. Proficient in Agile, Git, and the Git Flow branching model, responsive web system and python, I prioritize communication, adaptability, and code quality.

## Experience

- 2022  
Internship three months at Dragonfly Fintech
